PROFESSIONAL SUMMARY

Results-driven **IT Graduate and Software Developer** with practical experience in **Python, Django, and full-stack web application development**. Proven ability to design, develop, deploy, and maintain secure, database-driven systems using modern development practices. Strong problem-solving and analytical skills, with the flexibility to succeed in **internships, learnerships, and junior developer roles**. Highly motivated, fast learner, and committed to continuous professional growth.

CORE TECHNICAL SKILLS

- Prompt Engineering
- Python Programming
- Django Framework
- HTML5 and CSS3
- JavaScript (Vanilla)
- Full-Stack Web Development
- Database Management (SQLite, basic PostgreSQL)
- Git Version Control and GitHub
- Cloud Deployment (Render)
- Media Storage Integration (Cloudinary)
- Debugging, Testing, and Troubleshooting

PROJECT EXPERIENCE

Django Portfolio System

Full-Stack Developer | Academic & Personal Project

- Designed and developed a full-stack Django web application from scratch
 - Implemented admin-managed content for projects, skills, and downloadable CVs
 - Integrated **Cloudinary** for secure cloud-based image and document storage
 - Deployed the application to a live production environment using **Render**
 - Applied MVC architecture, clean code principles, and security best practices
 - Built responsive, modern user interfaces using CSS and JavaScript animations
 - Ensured compatibility across local development and production environments
-

EDUCATION

Diploma in Information Technology

Vaal University of Technology

National Senior Certificate (Matric)

Camden Combined School

CERTIFICATIONS

- Diploma in Information Technology
- Full Stack Developer – FNB App Academy
- Master AI for Web App Development – Simplilearn SkillUp
- CCNAv7: Introduction to Networks – Cisco
- IT Essentials: PC Hardware and Software – Cisco
- National Senior Certificate (Matric)

ADDITIONAL SKILLS

- Problem Solving and Critical Thinking
 - Analytical and Logical Reasoning
 - Team Collaboration and Communication
 - Technical Documentation
 - Time Management and Task Prioritization
 - Willingness to Learn New Technologies
-

CAREER OBJECTIVE

To secure an **entry-level, internship, or junior software development position** where I can apply my technical skills, gain hands-on industry experience, and contribute to impactful software solutions while continuously improving my professional capabilities.
